28. The lectures were very interesting.
29. The professor's attitude was also really helpful, every day he greeted the class with a smile and had a really positive attitude. His excitement for the course was infectious.
30. Lectures

What aspects of this class detracted from your learning?

5. It was too easy.
6. Nothing really. I don't normally give someone all 5s on an eval but this class itself was so well organized, the content interesting, and the professor so knowledgeable/organized/engaging that I really have nothing bad to say at all. I really enjoyed your class!
8. I'm an anthropology major, and this was my last quarter. I was profoundly disappointed that we didn't have a single writing assignment for this class (I mean real papers, not the daily short answer assignments). This was what pretty much disengaged my interest entirely.
10. Some class discussions were a bit repetitive.
13. There is nothing
14. None
15. It was a bummer when there were technology problems in the class (such as the sound not ever being able to be very loud for videos) but there are not many other solvable things I can think of.
16. Nothing
17. Length of the class. We only met for 4.5 hours a week. I would have preferred to have more time with the professor.
19. N/A
22. None.
23. I do learn more.
25. N/A
27. Nothing!
30. Readings

What suggestions do you have for improving the class?

1. None - One of the best professors and courses I've ever had.
7. If professor can put an outline of each lecture on class website, that'd be helpful.
10. More discussion between students
11. It may be better if there's PowerPoint for each chapter/week. Though I really love the instructor and the way he teaches, the intensity of reading and sometimes vaguely illustration of ideas during lecture confused me, and hinder my efficiency of study. But overall, it's a really good class. I would recommend it at my friends.
12. None. Great overall!
13. I love this class and I think professor was amazing by teaching us all those materials. I learned a lot!
14. Extra Credit
15. I really appreciate that he didn't police people using phones or computers.
18. None- definitely my favorite anthropology class I have taken at UW!
19. Posting lecture slides for review and reference.
20. Nothing. Thank you!
21. Nothing. Very well taught.
24. It would be nice to have more class info accessible online. It seems like it's more the norm now to have powerpoints or lecture audio/video uploaded online to review later, and I find this very helpful, especially when professors talk about things other than the readings.
27. N/A. I truly enjoyed it the way it was.
28. Less readings
31. One improvement might be condensing a bit of the schedule so that at the end of the quarter there is adequate time to connect all the various topics discussed up until that point as that might be one of the only lacking aspects of the class.
